SUMMARY

Adaptable healthcare professional with a background in caregiving and pharmacy, now transitioning into software development. Skilled in handling high-stress situations and tight deadlines, gained through time-sensitive healthcare roles. Experience in developing responsive web applications utilizing a diverse range of modern technologies, including JavaScript, C#, HTML, CSS, TypeScript, and Bootstrap, as well as libraries such as React.js and Material UI.

SKILLS

Languages: JavaScript, HTML, CSS, C#, TypeScript
Libraries & Frameworks: React.js, Bootstrap, Tailwind, Material UI
Tools & Platforms: Microsoft Azure, Notion, Figma, Jira, GitHub

EDUCATION

CodeStack Academy, Stockton (9/2022 - Present) Expected graduation date: 9/2023
- Completed over 1,100 hours of in-depth, project-based learning, emphasizing hands-on experience.
- Engaged in a professional learning environment that simulated real-world scenarios, including daily stand-ups and end-of-day meetings, tickets, and sprint planning.
- Acted as a project manager for a fullstack app development project, leading the development process and coordinating tasks.

PROJECTS

Pill Pal || This project is currently in progress || Front End Repo || Back End Repo || Notion || Figma
As the project manager for Pill Pal, I took charge of designing the prototype using Figma, and outlining the entire app's features and requirements on Notion. I led a team in developing this React.js-based application, utilizing Material UI and Bootstrap components, and used Jira for task management. The goal of this app is medication adherence.

Advice Generator || Azure || Github Repo
Developed an advice generator web application using React and Bootstrap. The project involved calling an API and recreating a product design that was provided to us. The goal was to test our ability to accurately recreate the design and incorporate API data into the application.

EXPERIENCE

Health Plan of San Joaquin — Pharmacy Technician I (08/2019 - 11/2020)
- Mentored and educated new team members, sharing established processes, techniques, and best practices.
- Conducted thorough analysis of patient medical histories to assist in pharmacist decision-making during authorization requests, ensuring precise and prompt care.
- Coordinated with providers to obtain necessary approvals and clarify missing or incorrect information.
- Maintained a high level of efficiency, managing a 24-hour turnaround time processing up to 50+ requests per day during peak periods.

CVS Pharmacy — Pharmacy Technician (08/2015 - 01/2020)
- Took on a leadership role by training new employees on pharmacy procedures and best practices, going above and beyond my assigned responsibilities.
- Implemented a daily workflow board to proactively enhance team communication and task management, streamlining workflow and increasing productivity.
- Recognizing the importance of reducing stress levels for the entire team in a high-pressure environment, I often took initiative to assist the lead technicians in their duties, allowing them to focus and not rush through important tasks.
